PROFESSIONAL SUMMARY

Experienced Data Engineer with a strong background in building scalable data pipelines, analytics-ready datasets, and reliable reporting systems. Skilled in SQL, Python, cloud data platforms, and workflow orchestration, with a track record of improving data quality, reducing latency, and supporting business decision-making.

CORE SKILLS

SQL, Python, Data Modeling, ELT / ETL Pipelines, BigQuery, Airflow, AWS, Docker, Tableau, Cloud Data Platforms

PROFESSIONAL EXPERIENCE

Senior Data Engineer | Technology Company | 2023 - Present

- Designed and maintained scalable data pipelines for reporting and analytics.
- Built reliable data models to integrate information from multiple source systems.
- Implemented data validation and monitoring checks to improve trust in downstream datasets.

Data Engineer | Digital Products Company | 2019 - 2023

- Developed data pipelines supporting large-scale operational and product workflows.
- Improved data freshness and reliability for internal reporting and business metrics.
- Partnered with analysts, engineers, and stakeholders to deliver analytics-ready datasets.

Data Analyst / Consultant | Advisory Firm | 2016 - 2019

- Analyzed operational datasets to identify trends, risks, and improvement opportunities.
- Built dashboards and reports to support management decision-making.
- Automated data preparation and validation workflows to reduce manual effort.
